Dear John

RE: UEL Primary School, Dagenham

As requested, I can confirm that Natta Construction undertook the groundworks, foundations and drainage packages for Neilcott on this demanding 3FE new build primary school design and build project, cooperating fully and meeting the tight programme required.

This project was a very tight time schedule having commenced on site in March 2011, to the first handover & occupation in September 2011 and culminating in the final completion in January 2012.

Natta have been cooperative and reliable throughout the project and have provided the additional plant and labour resources as necessary to meet all the timeframes set by us.

Natta completed the works to the high quality standards expected by Neilcott and the employer, the London Borough of Barking and Dagenham, including meeting all the environmental standards to minimise waste and reduce the carbon footprint of the project and assisting in the project achieving an "Excellent" BREEAM rating and overall were a successful addition to our team. I would be happy to recommend them for future works.

Yours faithfully
