

CULVERSTON GREEN PRIMARY SCHOOL

Project Facts

Sector: Education

Our Role: Sub Contractor

Location: Gravesend, Kent

Client: Portakabin

Project Value: £700,000

Duration: 7 months

Overview:

For this project Natta provided a full service to design, supply and install the onsite foundations, drainage and associated external works for a new Primary School in Kent.

Scope of Works:

Natta undertook as part of the scope the installation of a site haul road, full hoarding, temporary electrics, water services and the site welfare.

We designed and constructed the pad foundations and drainage and also constructed the external works.

The whole project was undertaken whilst maintaining the current school operations including external games.
