

BILLINGSHURST INDUSTRIAL PARK

Project Facts

Sector: Civil Engineering, Infrastructure and 278 Works

Our Role: Main Contractor

Location: Billingshurt, West Sussex

Client: Dunmoore Group

Project Value: Circa £1.5m

Duration: 6 months

Overview:

As the main contractor, we are undertaking the enabling works on this project. Works include a new roundabout and access road to a new Industrial Park which will feature a drive-thru Starbucks, Petrol station and commercial units.

Scope of Works:

Our scope includes the construction of a new on line roundabout with a short section of access road. The existing highway is to be kept open at all times.

Extensive resurfacing of the existing carriageway is to be undertaken and the installation of new street lighting and water mains (including diversions). An adoptable foul drainage diversion and storm attenuation tank are to be installed on site, as well as, potable water main and BT diversions.

Natta is undertaking the full Principal Contractor responsibilities on this scheme.
