

Oak Grove Phase 5

SECTOR:

Civil Engineering,
Infrastructure & 278
Works

OUR ROLE:

Sub Contractor

LOCATION:

Milton Keynes

CLIENT:

Crest Nicholson
Regeneration

PROJECT VALUE:

£5m

DURATION:

2 years

OVERVIEW:

This project is for the groundworks to a 73 unit housing site.

SCOPE OF WORKS:

Our works include the associated roads, sewers, piled foundations up to and including floors, drives, sheet lighting and landscaping.

The particular challenge was removing a 45,000m³ heap of soil that had built up from the previous 4 phases of the development and installing a 215m long gabion retaining wall, whilst maintaining progress on the initial site build.

The site is progressing well and is due to be completed in 2019.
